

Midwest Fiber RECYCLING

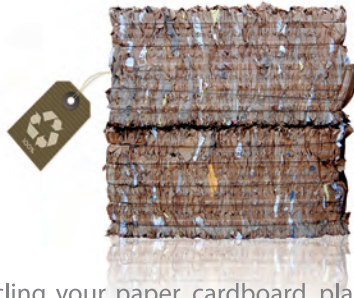

Could you **REDUCE YOUR WASTE COSTS** by recycling more?

Is your **RECYCLING PROCESS EFFICIENT?**

Do you sort your recyclable materials to **GET THE MOST MONEY?**

Is your company **MEETING YOUR "GREEN INITIATIVES?"**

With a **RECYCLING ASSESSMENT** from Midwest Fiber Recycling, you can be sure your recycling process is efficient, saving you the most money, and helping meet your "Green Goals."

Whether you have been recycling your paper, cardboard, plastics, or metals for years or just put a program in place, a **RECYCLING ASSESSMENT** from Midwest Fiber Recycling can help to identify areas of improvement.

HOW CAN YOUR ORGANIZATION BENEFIT?

- We can identify recyclable materials currently being thrown away, saving you money on your waste disposal costs.
- We can review your method of collection to ensure your process is efficient and maximize the value of your material for each pickup.
- We can help separate waste streams to help maximize dollars returned on high-volume materials.
- We can ensure your recycling practices are up-to-date with the most recent changes in material handling – what you used to have to separate you may no longer need to, saving you time and money.
- We can provide you with sustainability reporting, helping you to determine your true cost savings in waste management and energy use based on your recycling activities and volume.

STOP THROWING MONEY IN THE TRASH;
